

Mr. George Manuel

Aug 24, 2019

Dear George,

Please accept my personal gratitude for your excellent support provided to the Work Control department in the area of IT support/program development, SCR (Station Condition Records) coordination, PM monitoring, new work Screening and Station Work Control SPOC role during your 2018/2019, 15 month term.

With the organizational changes over the last year due to staff retiring augmented the need for support and coverage. You stepped up to the challenge, learned the roles and excelled at them introducing ways to become more efficient in our daily work practices and sharing your ideas to help us all become more effective.

You established good working relationships with other departments and represented our organization effectively while performing SCR coordination role along with PM deferral administration, new work screening and station work control single point of contact role.

I received similar positive feedback from many people in our own department with whom you interfaced or who reached out to you for help in solving IT or Work Control Website related issues. Your ability to quickly adapt and become a valuable team member, your positive attitude and enthusiasm will serve you well in the future.

I wish you the very best in your remaining studies, speedy graduation, and a challenging and fulfilling career.

Best regards,

Gilles Lavallee

Single Point of Contact, Work Control,

Darlington Nuclear, OPG
